DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 12/12/03 has been considered by the examiner of record.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Camp, Jr. et al. (5867131). With respect to claims 1-6, Camp, Jr. et al. teaches a wireless network adapter adapted to mate with a computer comprising a wireless communication circuitry; a bus connector; a RF antenna (120); a radio modem (121) a laptop computer (112) having a hinged display (116); and a detachable cover (as part of the antenna) as claimed (see for example figures 1-12). It is noted that the recitation that an element is “adapted to” perform a function is not a positive limitation, but only requires the ability to so perform. It does not constitute a limitation in any patentable sense.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the wireless network adapters of Cho et al. (6049450), Huffman et al. (5661635), and Sanad (5680144).
